- ✔ **Nitrates** - Help stop the replication of the Corona Virus
- ✔ **Lutein, Lycopene and Curcumin, and many many more**

The Proven Approach:

Now that there has been enough time to do research on COVID-19, we know what nutrients are recommended and can help support the body. Scientists and doctors from both sides of the pharmaceutical playing field agree that certain vitamins, minerals, herbs, and foods help protect and nutritionally support the body.

We've taken 35+ of those research-proven nutrients and combined them all into one convenient packet.

Exposure Protection Pak – just need to take 1-2 packets a day to receive the benefits from a delivery of pure, potent, predigested nutrients.
