

# CLEANSING MADE EASY

Removal of Toxins ■ Increased Energy ■ Improved Bowel Regularity

**Starting a new diet or supplement regimen?**

*Enhance the effectiveness by cleansing first!*

PUT THE POWER OF CLEANSING HERBS TO WORK FOR YOU:

Milk Thistle

Licorice Root

Pysillium

Jerusalem Artichoke

Dandelion Root

Chlorella

Barberry Root

## The Softer Approach:

Health professionals recommend cleansing for toxin removal, addressing digestive issues, and to improve absorption of nutrients when starting a new diet or supplement program.

*Unfortunately many patients are hesitant to cleanse because they've heard the side effects can be a bit overwhelming.*

**Soft Cleanse** solves this problem by providing gentle cleansing over time. Simply take one packet twice daily for 30 days, and receive the same deep cleansing and organ fortification you expect from a potent half-day cleanse.
